ABOUT ME

I am a highly motivated Full Stack Web Developer with a degree in Software Engineering (2022). My experience spans both backend and frontend development, equipping me with a comprehensive skill set to create dynamic, responsive, and efficient web applications. With a strong background in teaching web development and programming, coupled with hands-on experience in building production-level applications, I am passionate about delivering seamless user experiences and designing scalable architectures. I am eager to leverage my full stack skills in a challenging development role that allows me to contribute effectively to innovative projects.

EDUCATION

BACHELOR OF TECHNOLOGY
citect hitm / yaounde / 2022

- Bachelor of Technology in Software Engineering

HIGHER NATIONAL DIPLOMA
citec hitm / yaounde / 2021

- Earned Higher National Diploma with distinctions, demonstrating dedication.

HIGH SCHOOL DIPLOMA
mario academic complex / yaounde / 2018

- Graduated as the top student in the Science Department.

Jopacc / Bamenda / 2015

- Achieved top student honors in O/L for exceptional academic performance.

WORK EXPERIENCE

Vmedia
Nov 2023 - Present
Yaounde

FRONTEND DEVELOPER

- Lead frontend development for high-traffic web applications using React.js, ensuring mobile responsiveness and cross-browser compatibility.
- Collaborated closely with designers to implement visually appealing user interfaces and interactive features.
- Improved application performance by 20% through optimization techniques and efficient code practices.
- Integrated RESTful APIs for dynamic content loading and state management using React hooks and context API.
- Collaborated with backend engineers to ensure smooth data flow between client-side and server-side components.

Kitsafriq sarl
Jun 2022 - Oct 2023
Yaounde

BACKEND DEVELOPER

- Developed and maintained server-side logic for a web platform serving over 10,000 users monthly using Node.js and Express.js.
- Designed and implemented RESTful APIs for data retrieval, manipulation, and user authentication (JWT, OAuth).
- Managed a database of over 50,000 entries using MongoDB, ensuring optimal performance and data security.
- Collaborated in cross-functional teams to translate business requirements into technical specifications and deliver effective web solutions.
- Implemented unit and integration tests to ensure high code quality and reduce bugs by 30%.
